Phillip Willis

Self Employed Living the American dream
Green Bay, Wisconsin, United States

Summary

I am a software engineer with experience in Java back-end development. Several responsibilities focusing on back-end development using Java, Spring Boot, and Oracle SQL Databases.

Experience

Orayh Security, LLC
Co-Founder
April 2025 - Present (10 months)
Phoenix, Arizona, United States

At ORAYH Security, I lead the design, development, and implementation of PhishJitsu, our flagship phishing simulation and security awareness training platform built specifically for small to mid-sized businesses (SMBs).

I focus on:

Cybersecurity Innovation: Building scalable SaaS solutions that help organizations defend against phishing—the #1 cause of data breaches.

Technical Leadership: Architecting and deploying cloud-native infrastructure (React, Node.js, Kubernetes, AWS) with a strong emphasis on security, compliance, and performance.

Product Development: Designing user-centric training modules, analytics dashboards, and multi-vector phishing simulations tailored to industries with high compliance needs (healthcare, finance, legal, SMBs).

Primal Solutions LLC
Company Owner
October 2024 - Present (1 year 4 months)
